2013 SUMMER PROJECTS

I'll never forget the summer of 1998. It was my (Scott's) first and only summer project with Cru as a college student. God used that experience to change the direction of my life. It was the first time I'd shared the gospel with someone and seen them place their faith in Christ right before my eyes! It was the greatest joy I'd ever experienced, and a few weeks later I would determine that it would be my life's vocation.

It is because summer projects are so life-changing for the students who attend, that we are excited to help to lead the Santa Monica Summer Project again this coming summer! We're very excited to be a part of this project as a family, and participate in what God will do in the lives of scores of college students!

Part of leading the project is attending Summer Project Directors' Training. That was January 10-13th. Both of us were blessed to be able to attend this training. We flew to Denver for the conference where we met with the other team leaders, received excellent training, and began to make plans for the summer. We anticipate 70 students to attend the project this summer from around the country.

Praises & Prayer Requests

- Praise the Lord for the 800 students who came to Winter Conference in San Diego!
- Please pray for us now as we are in the process of reviewing applications to determine who God would have to be a part of this life-changing summer. Pray that God would enable us to accept those He wants to be on project with us this summer.
- January began the start of a season of evaluating the applications of those who would like to Intern or Stint with us for the next year. Please pray for us as we give leadership to the evaluation process. For wisdom, care, and discernment as to who God would have serve alongside us in the coming year.
- Pray also as we seek a second opinion on Scott's back condition. For healing & wisdom.

The kids enjoyed being with their friends at Winter Conference and staying in Sacramento while we were in Denver. Sarah loves ballet! Ethan is loving trying basketball right now with his buddies!

Thank you for your prayers & gifts that make it possible
to see life change among college students!
