Making House Calls

Scott is far from a medical doctor, but he did get the opportunity to make a "house call" this month, to our team at Northern Arizona University (NAU) in Flagstaff, AZ. As our Leadership Development Team grows in its capacity for ministry to the 200+ missionaries in our region, we have been able to take our resources to the field.

Scott traveled with one of our national directors to NAU on his annual "routine visit". While our national director checked in on how they're doing in accomplishing the mission to the over 22,000 students and faculty on campus, Scott checked in on their spiritual, personal, and ministry health and development. Together they were able to help this small team grow in working together and navigating life as campus missionaries.

Scott met with each of the two married couples one-on-one. He led a devotional time in the Word with the whole team, and helped with a team building exercise. They both met with a group of students involved in the Cru ministry there to get their feedback on the ministry. And at the end of their time they gave the team leader feedback and steps for moving forward as a ministry team.

Scott loved the opportunity and looks forward to more in the future!

Family Update

We've all had a busy February! Scott went on his annual men's camping trip to the desert, and Becky went on her annual friends weekend with some of her best girlfriends. Becky attended our church's annual Women's Retreat, and counseled Sarah and a group of girls at Winter Camp in the mountains! Meanwhile, Ethan finished a short season of basketball and has just begun baseball.

"And He said to them, 'The harvest is plentiful but the laborers are few. Therefore, pray earnestly to the Lord of the harvest to send out laborers into His harvest.'" Luke 10:2

Please Pray

- For the continued growth and success of the staff team at NAU
- Guidance as we plan for Summer Project in Santa Monica. So far we've accepted 32 students, but we have about 45 more to evaluate!
- As we help lead the evaluation process for next year's interns. We have 120 applicants who've submitted applications, and the great majority still to evaluate by the beginning of April!
- Wisdom on how and when to proceed with treatment for Scott's back issue.

Thank you for your gifts & prayers that help us get laborers to the harvest so students can hear about Jesus!
