Apologetics Course

So much of what Cru missionaries do on college campuses every day, involves explaining and applying the word of God. It is our foundation. It is central to our faith and ministry. That is why Scott coordinated a one-week seminary course for Cru staff, right here in SoCal. 31 Cru staff attended the course on Apologetics at the end of January, and grew in their ability to handle God's word.

Here's what some of them said about the course:

"I learned the factual basis for my faith I can explain using theology and facts. I am motivated to engage in conversations with students in a deeper way."

"It gave me much more confidence and boldness about my faith"

"My faith was strengthened. I've grown in my desire of wanting to care well for my mind and use it for God's glory."

**"Do your best to present yourself to God as one approved, a worker who has no need to be ashamed, rightly handling the word of truth."
 2 Timothy 2:15**

First Year Field Training

Each February, about mid-way through the academic year, our team hosts a 3-day training for our brand new field staff. We call it "First Year Field Training". It's a few days of intense ministry training, but also a unique opportunity to connect with other Cru missionaries from around our 4-state region. During this time they share experiences, encourage, and comfort one another. This year Scott was on a panel of senior staff and

regional leaders. They shared their varied experiences on staff as encouragement and wisdom for those just starting out. Many of our first year staff commented that that night was one of their favorite parts of the conference.

Please Pray For:

- **Regional Staff Wives Conference March 3-6. Please pray for our staff wives to be encouraged, refreshed and have a renewed heart for the Lord, their husbands, families and students. Please pray for Becky as she leads this conference.**
- **Intern/Stint Evaluations. Please pray for more college grads to apply to give a year or more in ministry with Cru.**
- **Summer Project student applications. Pray for more men to apply for Santa Monica. For wisdom and discernment in accepting student applicants.**
- **Scott's trip to Arizona State University on March 19th. He will help to care for and develop a new team there.**

Thank you for your investment that enables us to care for, develop and raise up laborers so students can hear about Jesus!
